PROFESSIONAL SUMMARY

Full Stack Software Engineer with 1.9+ years of experience in MERN stack, specialising in scalable web applications, REST API development, and backend architecture using React.js, Node.js, and PostgreSQL. Skilled in real-time systems (WebSockets), JWT authentication, RBAC, and API security. Experienced in CI/CD pipelines, database design, and deploying high-performance production systems.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, C++, Python

Frontend: React.js, Next.js, Three.js, Tailwind CSS

Backend: Node.js, Express.js, REST API Development, API Architecture

Databases: PostgreSQL, MongoDB, MySQL, Supabase

DevOps & Cloud: Git, CI/CD Pipelines, GitHub Actions, Docker, Cloud Deployment (Render)

Core Concepts: JWT Authentication, RBAC Authorization, WebSockets, API Security, Scalable System Design

WORK EXPERIENCE

Software Engineer (Intern → Full-Time)

Sept 2024 – Present

Genicminds Tech Pvt. Ltd. (Subsidiary of Salgem Infoigy Tech Pvt. Ltd.) · Noida, India

- Launched modular enterprise applications for 30+ users, improving workflow efficiency by ~25% and enhancing system scalability.
- Built and secured 25+ REST APIs using Node.js, reducing average response time by ~30% and improving API reliability.
- Engineered a production-grade HRMS platform with RBAC, supporting 30+ active users and reducing manual administrative effort by ~40%.
- Enabled real-time data systems using WebSockets, reducing data latency from seconds to sub-second updates (~80% faster).
- Delivered a Next.js web application, improving page load speed by ~35% and increasing SEO performance.
- Automated data extraction pipelines using Python (Selenium, BeautifulSoup), reducing manual effort by ~60% and improving data accuracy.
- Implemented CI/CD pipelines using GitHub Actions, reducing deployment time by ~50% and enabling faster release cycles.
- Created responsive dashboards for real-time analytics, improving decision-making speed and handling live data for 30+ users.

LIVE PROJECTS

gengindia.com gengindia.com/

- Launched a responsive real-time application, improving load time by 30% and ensuring cross-device compatibility.

kbmc.gov.in kbmc.gov.in/

- Delivered a high-availability web application handling high public traffic with 99% uptime and optimised performance.

PROJECTS

Real-Time Disaster Response Platform In Progress

Node.js · React.js · WebSockets · JWT · RBAC · Geospatial APIs

- Developing a full-stack system for real-time incident tracking, designed to support multi-user concurrent reporting (20+ users) and live updates.
- Integrated WebSocket-based real-time updates to enable instant data synchronisation and event-driven alerts for multi-user interactions.
- Building secure REST API architecture with JWT authentication and RBAC, handling role-based access across multiple user types.
- Integrating geospatial data visualisation for location-based monitoring, improving response planning efficiency by ~25%.

Multi-Tenant SaaS Platform 2024 – 2025

Node.js · Express.js · React.js · PostgreSQL · RBAC · Multi-tenancy

- Built a multi-tenant SaaS platform supporting 3+ organisations with isolated data and RBAC.
- Architected backend services with Node.js and Express for tenant-aware routing, improving API request handling efficiency by ~30%.
- Established database-level isolation, ensuring complete data separation and secure multi-tenant operations.
- Created role-driven dashboards in React.js, improving workflow efficiency and user management for 30+ active users.

3D Portfolio Website s-vashistha.github.io/PORTFOLIO/ 2025

Three.js · React.js · Tailwind CSS

- Developed an interactive 3D portfolio using Three.js and React with real-time rendering, achieving smooth performance (60 FPS) across devices.
- Optimised performance, reducing load time by ~40% for faster interaction.
- Crafted responsive UI with modern frontend practices, ensuring cross-device compatibility and seamless user experience.

EDUCATION

B.Tech — Computer Science & Engineering

2020 – 2024

Ambalika Institute of Management and Technology · CGPA: 7.52

ACHIEVEMENTS

- Solved 250+ DSA problems on LeetCode and CodeChef, demonstrating strong command of data structures and algorithms.
- Sports Captain — 2× Runner-up, AKTU Zonal Basketball Championship.
- Secured 1st place in a Tech Innovation Competition.
